

EXTRA DUTY SCHEDULE

2020-2021

The base salary for calculation of extra duty salary includes both the salary increase and the wellness incentive. To determine the point value for extra duty salaries, each point will equal 1.3 percent of the extra duty base salary. The extra duty base salary represents the previous year's extra duty base salary plus the full % raise teachers received. 2020-21= $\$41,873$ (19-20 extra duty base) x 1.038 (3.8% raise) = $\$43,464 * 1.3\% = \565 per unit. The extra duty base salary will increase at a rate equal to the average teacher salary increase. **The extra duty base salary is not the base salary on the teacher hiring schedule.**
