	Policies and Regulations	Priority Objectives of Board Operations

Priority Objectives of Board Operations

The statement of policies of the Board of Education shall be based upon a recognition of three district functions of school control and management:

1. Legislative Function

The Board of Education shall formulate policies for the general management of all schools within the district.

2. Executive Function

The Board of Education shall delegate to the superintendent as per job description its executive and administrative duties and responsibilities necessary for carrying out its policies and shall hold him/her responsible and accountable.

3. Appraisal Function

The Board of Education shall hold the superintendent responsible for furnishing complete information necessary for the Board's evaluation of the school program.

It is general practice for the Board of Education to act as a committee as a whole. Special committees shall be appointed as needed and dismissed when their tasks are completed.

In an effort to improve Board competence, education and development will be scheduled regularly and involve all board members.

The Board shall regularly appraise its own policies and practices.

Rules and regulations shall be guiding principles rather than detailed instructions. They shall reflect policy rather than administrative procedure, which is the responsibility of the superintendent.

Rules, regulations and policies shall be part of the minutes, on record and not to be modified except with consent of the Board of Education.
